Prescription letter

For Canadian health spending accounts and medical expense records. To be completed by a physician or nurse practitioner on practice letterhead.

Date: [date]

Re: [Patient full name], date of birth [YYYY-MM-DD]

I am the [physician / nurse practitioner] for [patient name]. [Patient name] has [condition], which results in a speech impairment.

I prescribe VoiceBloom AAC, a symbol-based communication device in software form, designed to help an individual who has a speech impairment communicate by selecting symbols or spelling out words. This is required because of the condition above and is for [patient name]'s own use.

Expected duration of need: [ongoing / period].
